____________________________________________________________________________________________________

10. **Sign Here** (under the penalties of perjury)

_________________________   ____________________________   __________________________

Signature                    Printed Name                        Date

If the bicycle has **two or three wheels**, **an automatic transmission**, a **cylinder capacity of not more than 50 cubic centimeters**, and a **maximum speed of 30 MPH or less**, it must be registered as a **Motorized Bicycle**.

If the modified bicycle does not meet all of the requirements above, the RMV will not register it (as a moped, a motorcycle, or a “limited-use motorcycle”) and it **cannot legally be operated on a public way while the motor is being operated**.

**Low Speed Electric Bicycle**

If all of the following apply, a bicycle will be deemed a “**low-speed electric bicycle**” under Federal law (15 U.S.C. § 2085) and will not have to be registered with the RMV:

- Has two or three wheels
- Has fully operable pedals
- Has an electric motor of less than 750 watts (one horsepower)
- Has a maximum speed of less than 20 MPH on a paved level surface, when powered solely by the motor
